

Cielo Breez Max

Award-Winning Smart Thermostat for Mini-Splits

Model:
BM101WA
(Black)

Model:
BM102WA
(White)

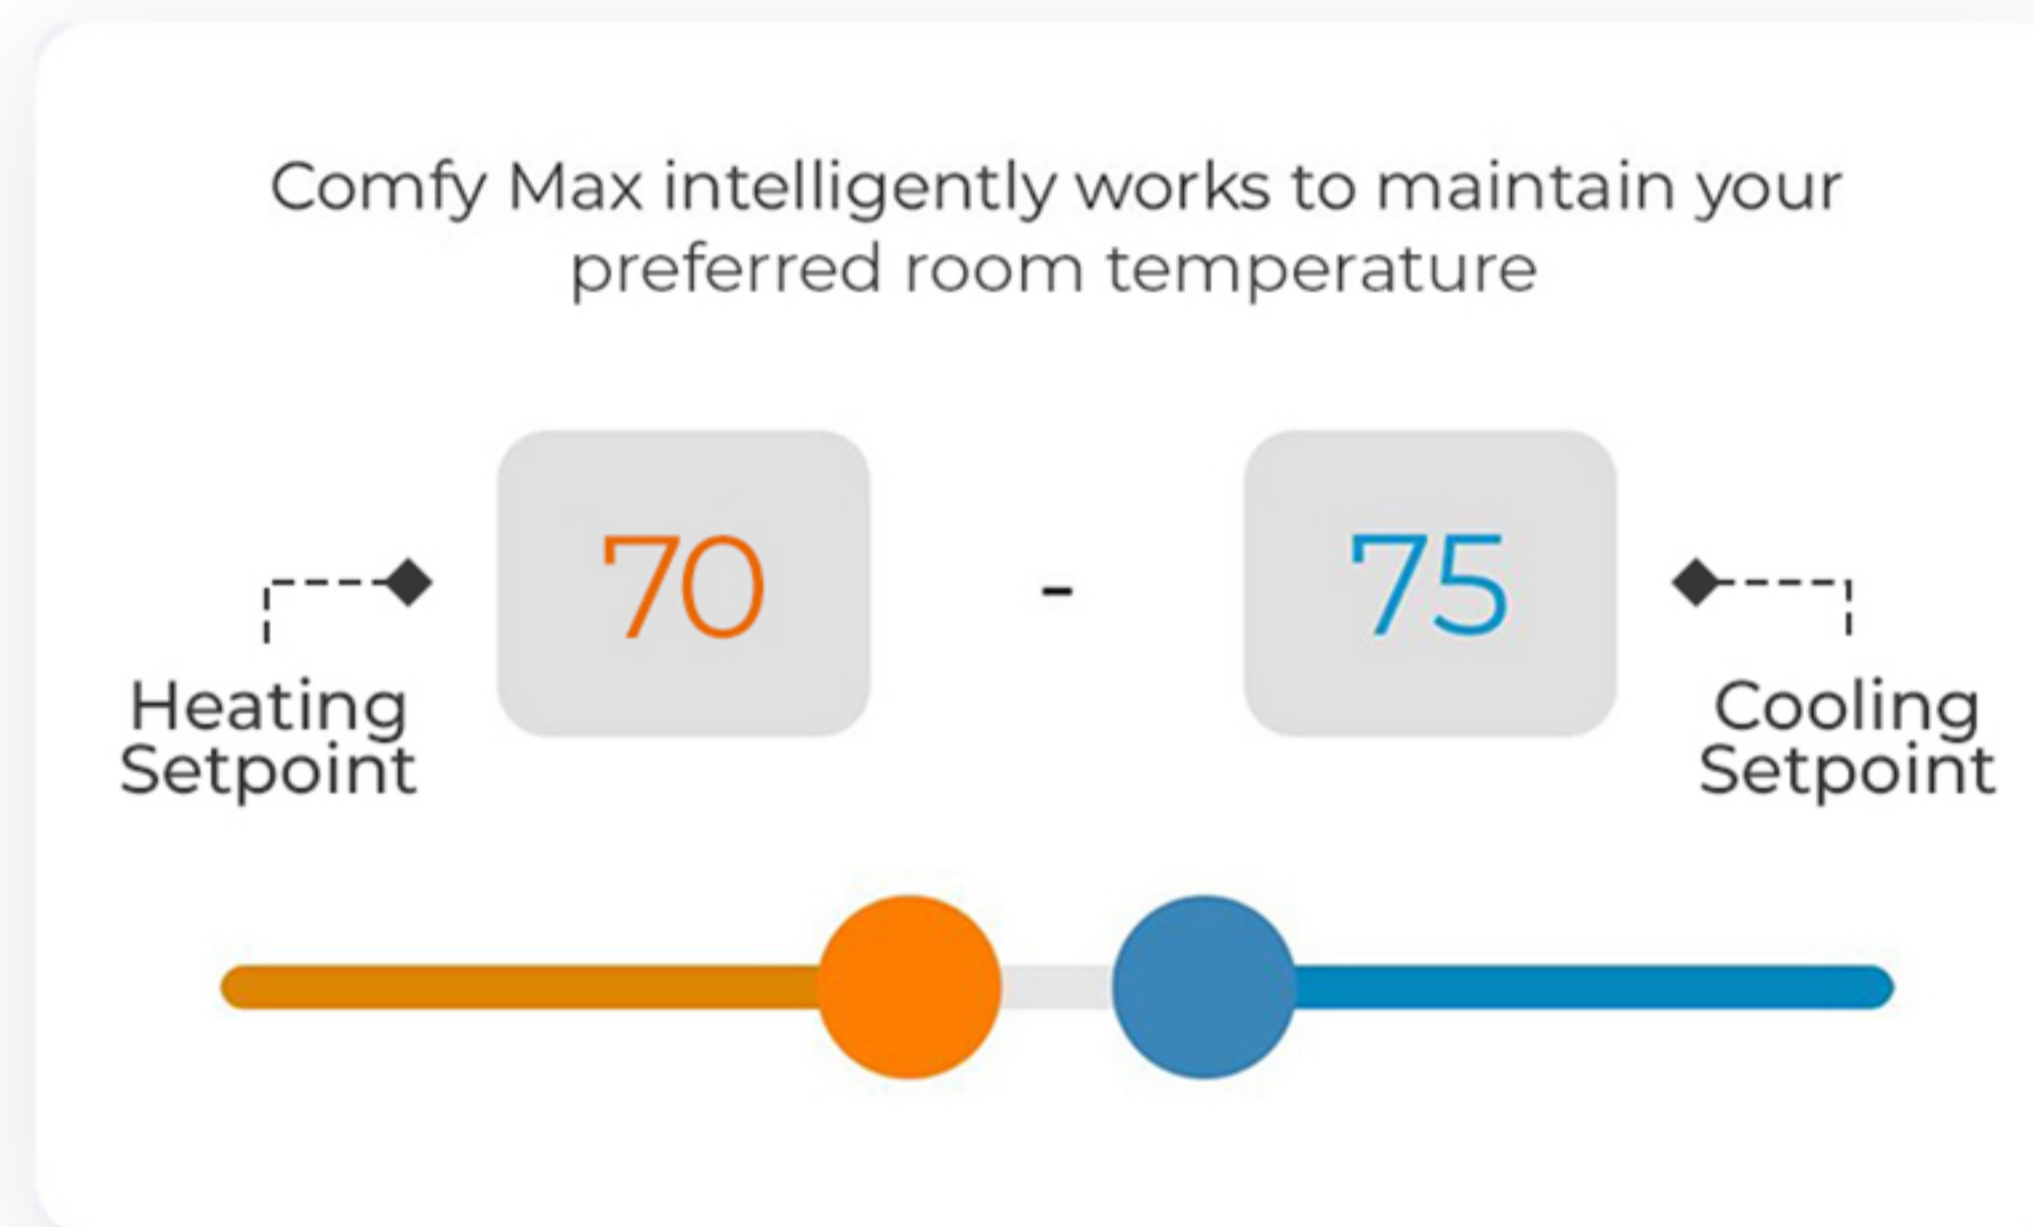

Auto Remote Detection

Equipped with an advanced auto remote detection algorithm, Cielo Breez Max can detect any mini-split brand and model automatically. Just point your remote at the Breez Max and press the power button once, it will automatically select the brand and model, ensuring seamless setup and compatibility.

Comfy Max

Comfy Max turns Cielo Breez Max into a true smart thermostat for mini-splits. It uses AI-based algorithms to adjust the temperature setpoints, fan speed, and mode of the mini-split to maintain your desired room temperature, preventing overheating or overcooling. You just have to set your desired heating & cooling setpoints and Breez Max will take care of the rest.
