Cielo Home App - Comfort and Savings, All in One App.

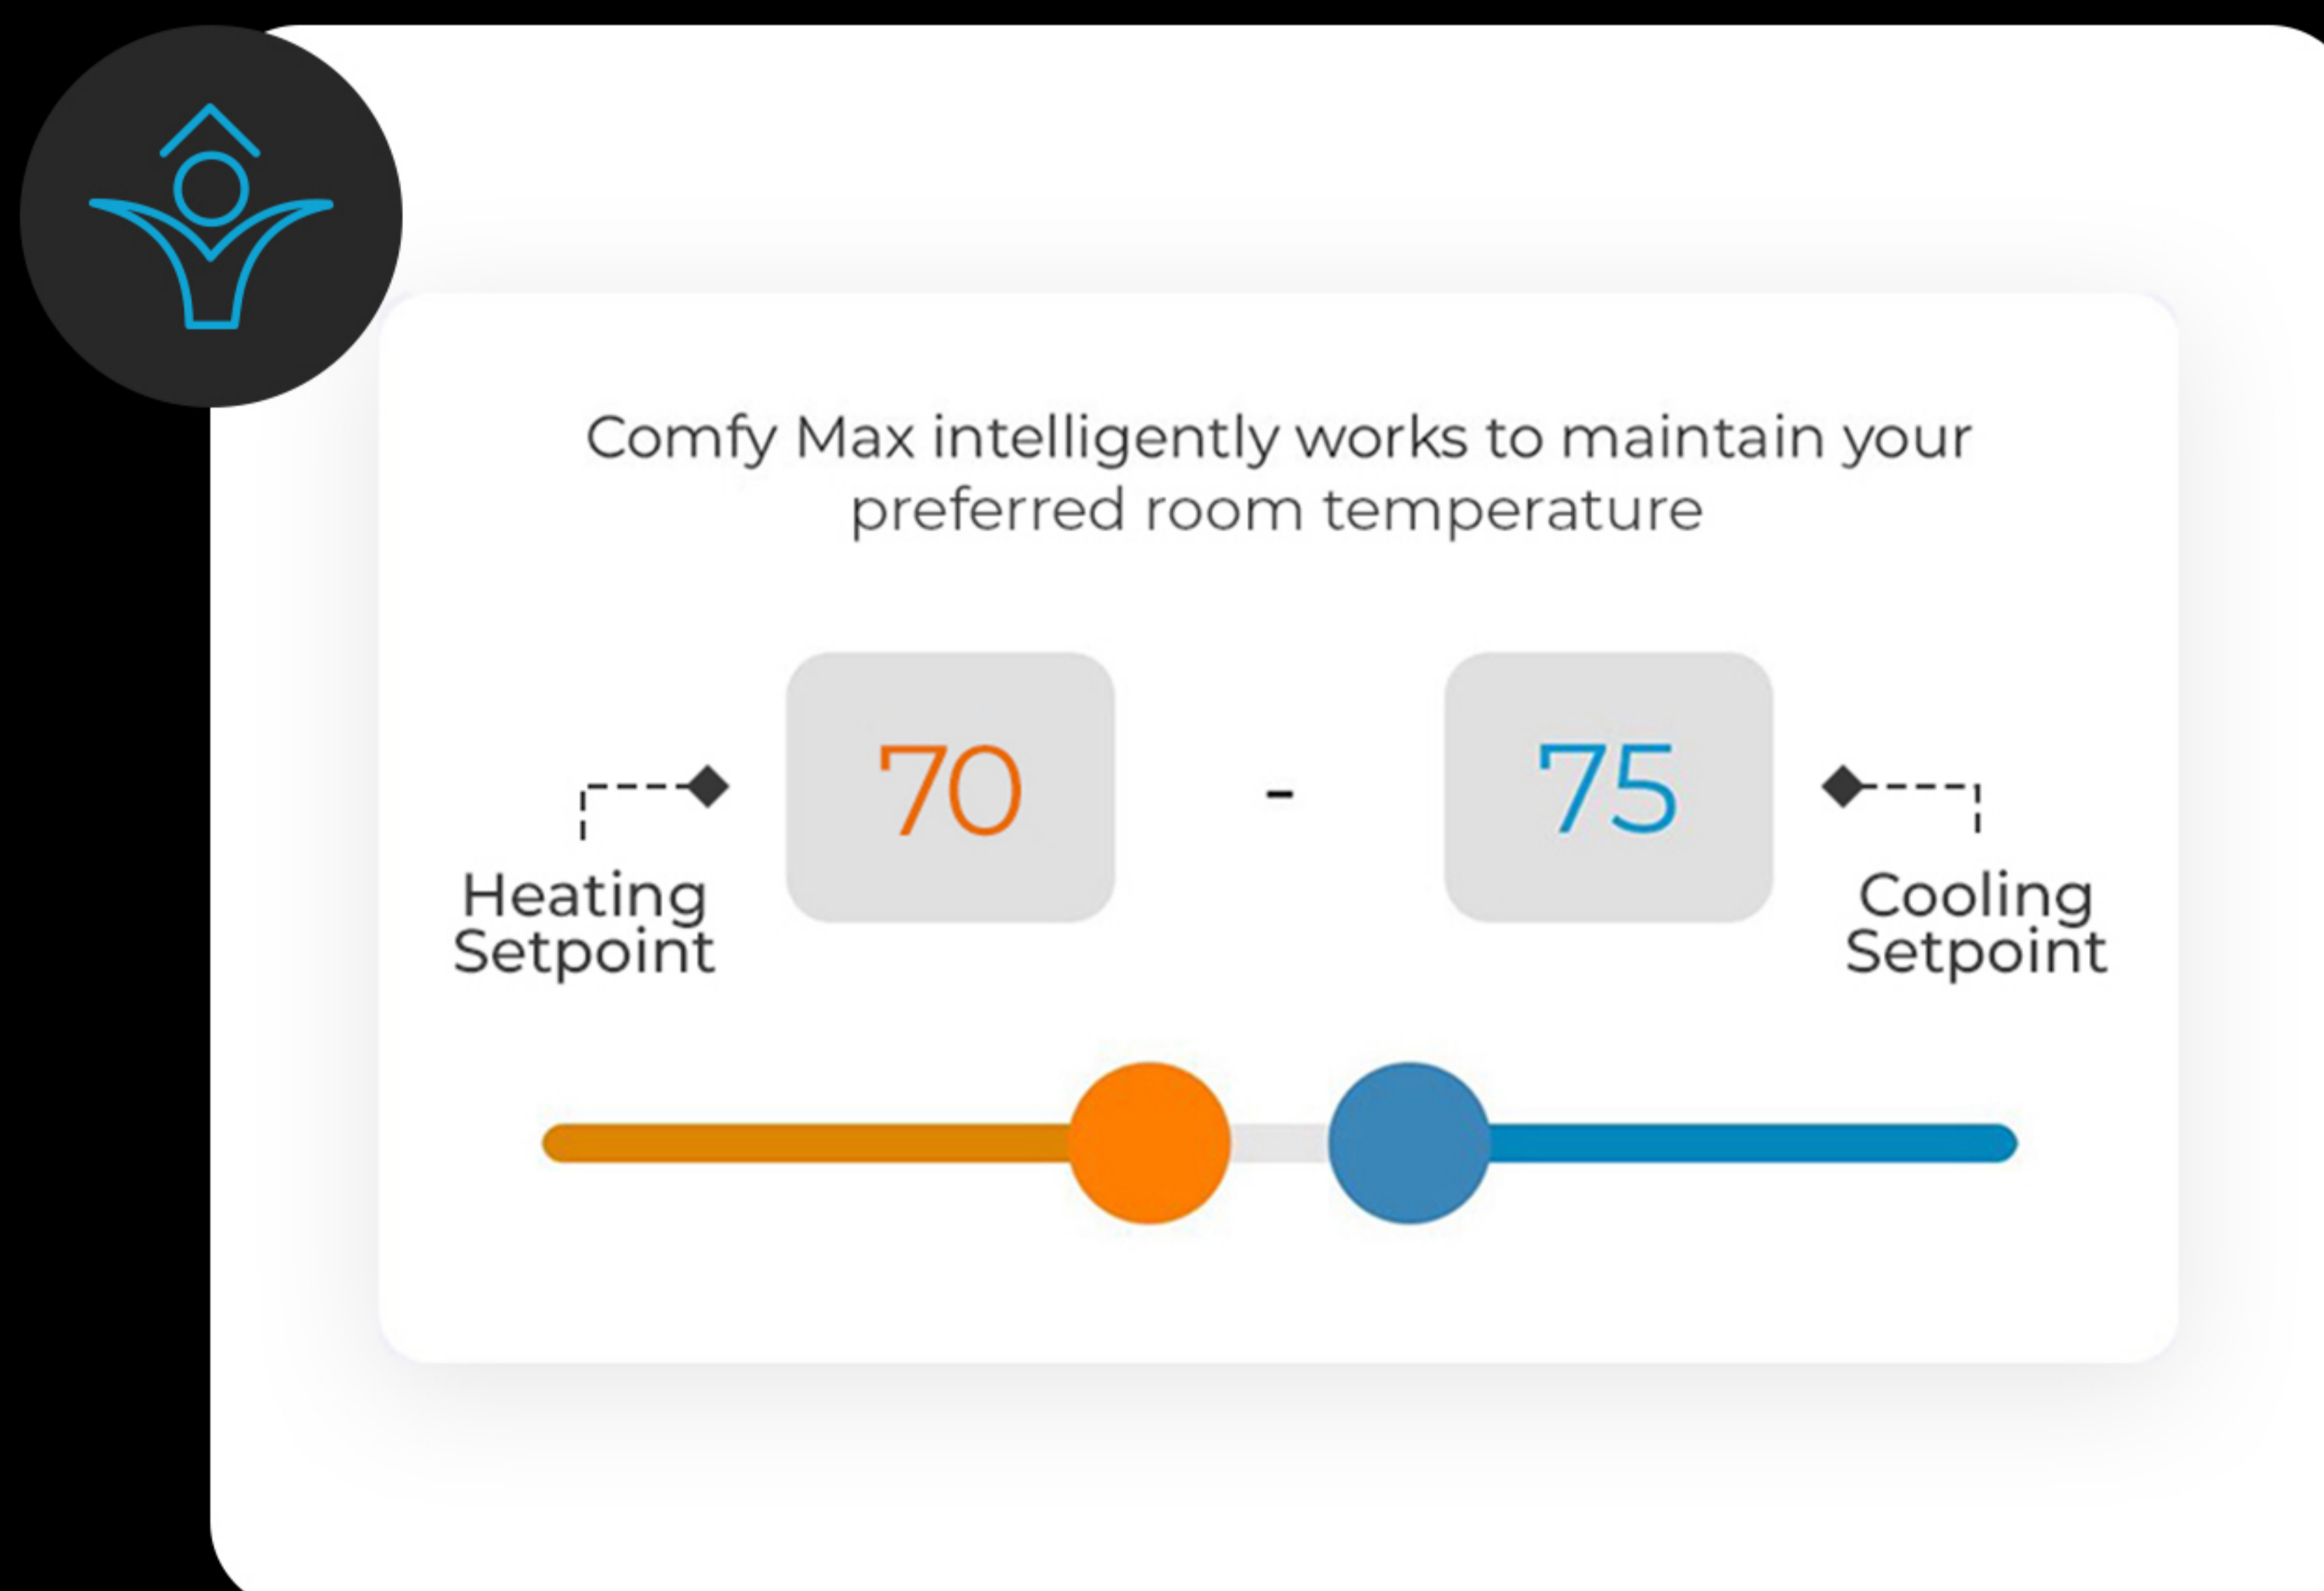

Connect with Ease: Cielo's AI-Based Technology Auto-Detects the Manufacturer and Model of Your Mini-Split

Equipped with an advanced auto remote detection algorithm, Cielo Breez Max can detect any mini-split brand and model automatically. Just point your remote at the Breez Max and press the power button once — it will automatically select the brand and model, ensuring seamless setup and compatibility.

Comfy Max: Precisely Balanced - Eliminate Overheating and Overcooling With True Thermostat Precision

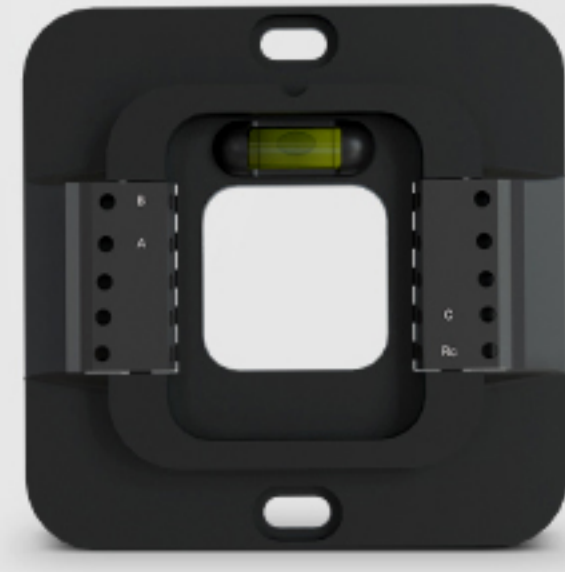

Comfy Max turns Cielo Breez Max into a true smart thermostat for mini-split. It uses AI-based algorithms to adjust the temperature setpoints, fan speed, and mode of the mini-split to maintain your desired room temperature, preventing overheating or overcooling. You just have to set your desired heating & cooling setpoints and Breez Max will take care of the rest.

Smart Home Compatibility

The Cielo Smart Thermostat is an attractive, well-priced smart thermostat that will make heating and cooling your home easier and more efficient.

This Wi-Fi enabled smart A/C controller turns your air conditioner or heat pump into a smart, easily manageable resource.

Offering the same smart control features for regulating a central air conditioning system to one of those manual old-school and — pardon the term — dumb AC units.
